CITY COUNCIL AGENDA ITEM

Memo Date: April 17, 2020
Agenda Date: July 8, 2020
Prepared By: Jessica Dovale, Utility Support Service Manager
Through: Rebecca Bowman, Finance Director
Requested Action:

To authorize the Interim City Manager to execute a multi-year contract addendum between the City of Cocoa and First Mobile Trust, LLC, for credit card settlement and utility bill printing, mailing, and online presentment. The expenditure for the bill printing and postage is pending the Approval of the FY2021 Budget.

BACKGROUND:

The City currently contracts with First Mobile Trust, LLC, formerly First Billing Service, LLC, to provide credit card payment settlement, utility pay by text, utility bill statement printing and mailing, utility e-bill presentment, interactive voice recording platform, and a call center with live agents to assist with payment taking. These services, with the exception of utility bill statement printing and mailing, have been implemented at no cost to the City of Cocoa. The cost of bill printing and postage for mailing amounts to about \$498,000 per year.

An additional \$7,500 has been budgeted for routine bill insert expenses, should an insert be needed in FY2021, as well as \$5,000 for any system interface or bill redesign programming expenses should they be necessary.

The credit card payment aspect on the contract includes a Convenience Fee Program, which was implemented in 2014. This Convenience Fee (Interchange rates and banking fees) is passed on to

the customers who choose to pay by credit card. The credit card companies charge a percentage fee on every credit card transaction, which can range from 2% or higher. The City charges the convenience fee for every credit card paying customer in the regional utility system, which includes customers with service addresses in Brevard County, Viera, Cape Canaveral, Cocoa Beach, Merritt Island and other areas outside of the City. At this time, approximately 4% (1,440) of the City's utility credit card payments are made by Cocoa citizens. In 2014, the City of Cocoa paid the fees instead of passing the cost on to the customers who choose to pay their utility bill via a credit card. At that time, the cost to the City was \$250,000 annually. The cost of these fees is an estimated \$564,000 annually today based on the usage.

Customers who choose not to pay this convenience fee benefit from the on-line bill presentment and e-billing features and have the following options to pay at no cost: mail-in lockbox service, ACH withdrawal or electronic check through their banking institution. Should the convenience fee be absorbed by the enterprise utility, the credit card percentage fee cost would then be spread over all customers through the annual rate making model since it is an operational cost.

The existing three (3)-year contract expires October 30, 2020 and includes a two (2) year renewal option. Staff is requesting Council to authorize the City Manager execute a two (2) year renewal addendum to the contract.

STRATEGIC PLAN CONNECTION:

N/A

BUDGETARY IMPACT:

Budgeted Yes
